24 June 1987

MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM: William F. Donnelly
Deputy Director for Administration

SUBJECT: Scattergood-Thorne Property

1. I visited the Scattergood-Thorne Property on 15 June. It is in shabby condition and the lawns have been allowed to grow up. The trees and shrubs are untrimmed. Nevertheless, it has the potential to be a handsome meeting site if we can find the funds to rehabilitate, clean, paint, and air condition the old house. I instructed the Office of Logistics to have the grounds cleaned up and mowed and the trees and shrubs trimmed. They were also told to fence the property.

2. For six weeks a team of officers from various parts of the Agency considered various options for making use of the Scattergood-Thorne Property. The committee's recommendations are found on pages 8 through 12 of the attached report. With your concurrence, I would like to consider these recommendations to be a long-range plan for the Scattergood-Thorne Property. This is not a request for funds.
